

Re: XM Instant Traffice & Weather

The quality and content of major market radio no longer meets the requirements of today's consumer. Listeners must endure nonstop commercials interrupted by a brief traffic and weather update, often coming too late to avoid a major traffic problem. XM Radio provides a choice for me, the consumer. Let the free market determine the programming. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM Radio's ability to provide the kind of programming that I demand and deserve.

Keep the free market free.
